INSPECTION REPORT COMMENTS

Permit No. ACT/007/033

Inspection Date 1/19/91

Please number comments to correspond with topics on previous page.

Signs & Markers. Mr. Pappas stated he would repaint the disturbed markers. This item is not currently a compliance problem.

Topsoil. Topsoil piles have been drill seeded on the tops and broadcast seeded on the slopes. The areas have also been mulched.

Dimensions. Operator has started spring maintenance on regrading dimensions & berms. Berm adjacent to stoker pile road and lying west of the stoker coal storage area needs to be beveled up.

Sediment Pond. All ponds, A-F were dry including the permanent impoundment. All the ponds meet Division requirements.

Other Sediment Control. Straw bales and other sediment control measures were in place and functional. Placement of additional straw bales and/or a berm to better tie into existing sediment control was suggested by the undersigned. The sediment control area lies adjacent to pond F.

Copy of report mailed to Andalex, Mike Glasson, OSM, John Kathman, DOGM, Sue Helfrich
